

KOELKASTEN EN VRIEZERS

Vitrifrigo Airlock Koelkasten

Reken op ons.

Auerhaan Lelystad is een bedrijf met een zeer lange historie; opgericht in 1885, is het bedrijf een bekende en betrouwbare toeleverancier van producten voor de carrosseriebouw, busbouw, machinebouw, scheepsbouw en jachtbouw. Vele vertegenwoordigingen van gerenommeerde fabrikanten in Europa en daarbuiten maken het productassortiment van Auerhaan tot een zeer breed programma. Het mag u dan ook duidelijk zijn dat de informatie die wij u geven via deze website nooit compleet kan zijn.

Frigoriferi e freezer con unità interna/esterna

L'evoluzione continua

Una gamma completa che copre tutte le esigenze in termini di spazio e di capacità. Ergonomici, silenziosi, intuitivi e sicuri, in grado di garantire il massimo del comfort a bordo: la serie "frigo-freezer e congelatori" è parte, ormai da anni, dell'equipaggiamento di imbarcazioni di svariate tipologie e dimensioni.

I modelli il cui codice termina con la lettera "A" sono equipaggiati con un evaporatore ad accumulo di freddo, consentendone l'utilizzo anche a motore spento, **ora con il nuovo sistema "AIRLOCK"**.

The evolution continues

The refrigerators and freezers series offers a complete range that can meet any space or capacity requirements.

Ergonomic, silent, intuitive and safe, these units are able to guarantee the best cooling onboard: years of use on various types and sizes of boats have included these classic refrigerators and freezers.

Models whose code end in "A" are equipped with a holding plate styled evaporator, which provides higher efficiencies and longer 'Off' time, **now with the new "AIRLOCK" system**.

Standard

Versione "Dark" senza profilo di fissaggio
"Dark" version without mounting flange

Disponibile anche in versione "Light"
Also available in "Light" version

Airlock. innovativo sistema di chiusura "intelligente"

Il nuovo sistema di chiusura Airlock offre 4 soluzioni integrate e innovative:

- 1) chiusura positiva della porta, per scongiurare le aperture accidentali;
- 2) unico profilo di fissaggio (optional), sia per la versione a incasso totale (door inside) che per quella a incasso parziale (door outside);
- 3) veloce reversibilità della porta: grazie ad un'accurata progettazione di tutti elementi del sistema, si effettua in tempi particolarmente rapidi;
- 4) sistema "vent position" integrato, per tenere la porta del frigo socchiusa, evitando così la formazione di odori sgradevoli e di muffa nei periodi di non utilizzo.

Due le versioni disponibili: **Light** che veste la tonalità luminosa del grigio perla, **Dark** nella quale viene dato ampio risalto al contrasto cromatico. Due interpretazioni in chiave grafica, che mirano ad esaltare proprio nel bianco e nel nero le linee, le geometrie e le texture dei materiali utilizzati, in relazione alle diverse esigenze d'immagine e di ambientazione del frigorifero.

New "SMART" locking system.

The new Airlock closure system integrates 4 innovative solutions:

- 1) positive door closure, to prevent unwanted openings;
- 2) unique Double purpose mounting flange (optional), for both partial built-in (door outside) or total built-in (door inside);
- 3) fast reversible opening: thanks to its smart design, it's now extremely quick and easy to operate;
- 4) integrated "vent position" system, to keep the fridge door ajar, preventing the formation of unpleasant odours and mould when not in use.

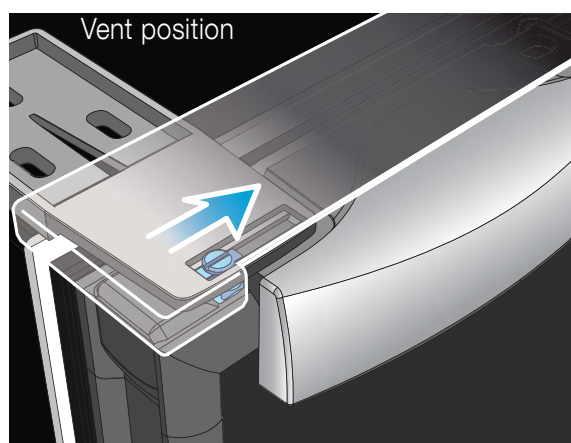

The new series is available in two brand new colours, very popular and elegant at the same time.

Two available versions: **Light** bright tones of pearl grey, and **Dark**, with an emphasis on the contrasting colours. Two graphic interpretations that aim to enhance the design, shapes and textures of the materials used, to meet the different needs in terms of image and surroundings of the refrigerator.

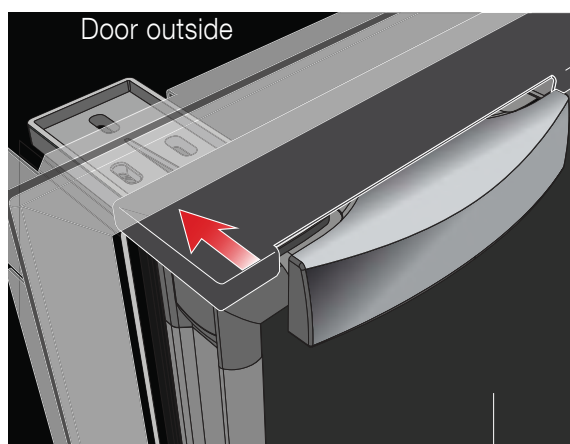

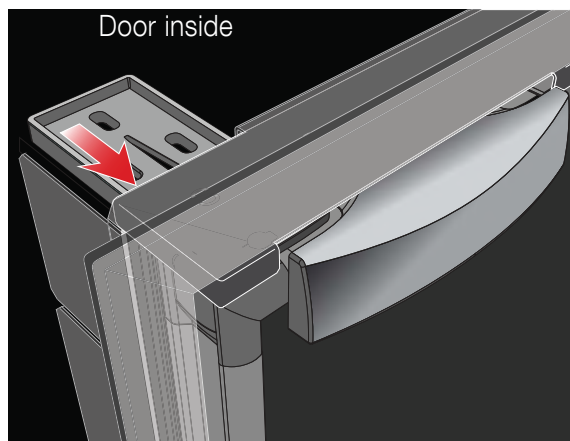

Optional

Versione "Dark" con profilo di fissaggio
"Dark" version with mounting flange

Optional

Versione "Light" con profilo di fissaggio
"Light" version with mounting flange

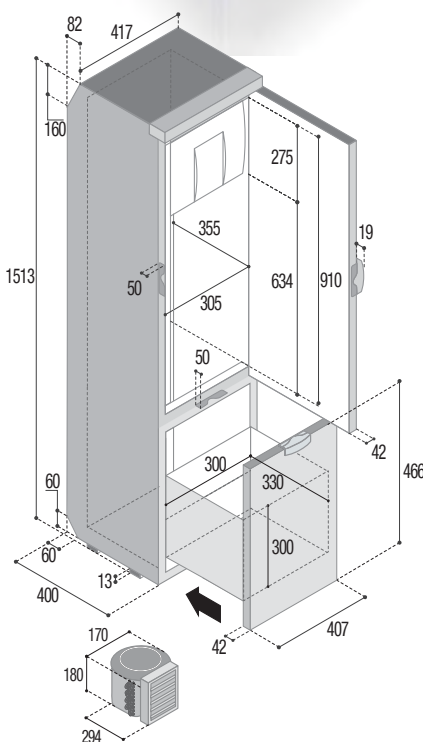

SLIM150

Capacità totale - Total volume	140 lt.
Vano freezer - Freezer compartment	16 lt.
Peso netto - Net weight	42 kg.
Alimentazione e consumo nominale Power supply and nominal consumption	12/24 Vdc 47 W

Frigoriferi e freezer con unità esterna

Refrigerators and freezers with remote cooling unit

Disponibile come
Available as

H max
365 mm.

NIGHT MODE

Funzione di riduzione del rumore e del consumo energetico

Lowest noise level and reduced consumption during night time

TURBO MODE

Veloce raggiungimento della temperatura di raffreddamento desiderata

Fast chill set point temperature achieving

VENT POSITION

Mantiene socchiusa la porta evitando sgradevoli odori nei periodi di non utilizzo

It keeps the fridge door slightly open to prevent unpleasant odors due to not-working time

3-STAR FREEZER

Vano freezer da 16 litri per la conservazione dei cibi alla temperatura di -18°C

The 16-liter three-star freezer can store frozen food at a temperature of -18°C
