BRIDGE INDUCTION COOKTOP - 2 BURNER

SPECIFICATIONS

Part Number: B80301, B80305

Orientation : Portrait, Landscape

Burners: 2 (8" each)

Voltage: 240V

Amps: 15 amps

Output: 3500 Watts

Control Type: Touch Control

Overall Dimensions: Landscape: 14.25" D x 23.25" W x 2.93" H
Portrait: 21" D x 12" W x 2.93" H

Actual Weight: 12 lbs.

Installation: Drop-in; NEMA 5-20 plug

Expand your cooking options with the Bridge induction cooktop. Precision induction elements deliver high heat while providing consistent cooking results with greater energy efficiency and safety. The included patented SiKEN® mat covers the cooking area, pot retention, glass top protection, quick heat dissipation and easy cleanup. Simply throw the mat in the dishwasher or sink.

FEATURES

- Smooth black glass with stainless steel graphics
- Easy-to-use Slide Touch Controls offer smooth, intuitive and precise power control
- Control-lock allows you to lock the cooktop to prevent small children from activating the controls
- With the Boost setting activated, easily achieve the maximum heating power to boil water faster
- Quick heat dissipation
- Waterproof digital touch control panel
- Automatic shut-off at 60 or 90 minutes
- Included silicone mat protects cooking area and is dishwasher safe
- Smart Timer - keeps food warm after completion (time out)
- Round edged ceramic glass is durable and easy to clean

ACCESSORIES

Kenyon backs every cooktop with a 3-year product replacement warranty

Tested to UL-858

StackEN™ Essentials -A70063

Custom-designed and suited for use on Induction, Glass, Vitro-Ceramic, Halogen and Gas cooking stoves.

WHAT IS VAPOR COOKING?

Vapor cooking is a revolutionary cooking method that will radically change not just the way you cook, but also how it tastes. StacKEN™ lets you create intensely flavorful, naturally vitamin and mineral-rich meals undiluted by water or doused in oil, butter, or other fat and sodium-laden ingredients. With StacKEN™ cookware, meals practically cook themselves - using less energy and fewer ingredients than traditional cooking methods.

Cook any and all types of foods - including baked goods - right on your stove top, using little or no water or added fats. No more limp, overcooked vegetables or bland, dry meats. Vegetables are vibrant and flavorful; chicken, meats and fish are succulent enough to melt in your mouth. Even skinless boneless chicken breasts are juicy and tender without adding so much as a drop of oil to the pan.

The secrets to Vapor Cooking lie in the multi-ply construction and unique shape of our cookware. Each piece of cookware is crafted from multiple layers of the highest-quality, American-made metals. The core provides superior and unsurpassed heat conductivity and retention. The core is sandwiched between an interior and exterior layer of T-304 surgical stainless steel, creating cookware that is as durable and easy to clean, as it is beautiful.
